

# PUNEET CHATURVEDI

ASPIRING FULL STACK DEVELOPER

## ABOUT

A motivated Computer Science student with academic record (CGPA: 8.71) and hands-on experience delivering full-stack web applications. Proficient in modern JavaScript frameworks and AI integration, with 5+ deployed projects including autonomous security systems and educational platforms. Active contributor to Microsoft Technical Club in VIT Bhopal with proven experience in rapid prototyping.

## PORTFOLIO

## SKILLS

**Frontend:** React 18, Next.js, TypeScript, TailwindCSS, Bootstrap, HTML5, CSS3, Recharts

**Backend:** Node.js, NestJS, Express.js, FastAPI, Python, PostgreSQL, MongoDB, RESTful APIs

**AI/ML:** NLP, Sentiment Analysis, Vertex AI, Gemini API, Computer Vision, LangChain, TensorFlow, Random Forest

**Web3/Blockchain:** Polygon Smart Contracts, IPFS, Web3.py, Tokenization

**Tools:** Git/GitHub, VS Code, Figma, Netlify, Vercel, npm, Chrome DevTools

## MAJOR PROJECTS

### HELIX | AUTONOMOUS THREAT INTELLIGENCE PLATFORM

[GitHub Link](#)

*NestJS, Next.js, MongoDB, LangChain, Multi-Agent Orchestration*

Built a multi-tenant full-stack SaaS utilizing NestJS, Next.js, and MongoDB that ingests security data in <10ms. Integrated a 4-agent LangChain orchestration pipeline to autonomously investigate, self-heal, and report infrastructure anomalies without hardware overhead.

### KRISHI SUTRA | DECENTRALIZED AGRICULTURAL WEB3 APPLICATION

[GitHub Link](#)

*Python, NextJS, FastAPI, TensorFlow, Web3.py, MongoDB, Polygon Smart Contracts, IPFS*

Built a decentralized agricultural Web3 application using FastAPI that tokenizes crop yields via Polygon smart contracts and IPFS. Engineered a dual-AI engine using TensorFlow for automated visual crop quality grading and Random Forest classifiers for instant, algorithmic loan risk assessments.

### GUARDIAN AI | AUTONOMOUS SECURITY

[Demo Link](#)

*Next.js, TypeScript, Google Vertex AI, DevSecOps*

An autonomous security engineer that monitors codebases 24/7. It identifies vulnerabilities using Gemini 2.0 and automatically generates patches via GitHub Pull Requests.

### AEGIS CLASSROOM | EDUCATIONAL PLATFORM

[Demo Link](#)

*React, TailwindCSS, Google AI, Recharts*

Comprehensive educational platform with real-time collaboration features and AI-powered insights. Built seamless classroom management system with intuitive user interface and data visualization analytics.

### CONTENT & EMOTION ANALYZER

[Demo Link](#)

*React, Python, NLP Models, Recharts*

An intelligent NLP portal that processes text samples to classify 8+ emotions with 85% accuracy. Includes dynamic data visualizations for sentiment trends.

## EXPERIENCE & LEADERSHIP

### MICROSOFT TECHNICAL CLUB | VIT BHOPAL

2024 – Present

**Web Developer:** Lead the creation of the official club portal and quiz systems.

## OPEN SOURCE CONTRIBUTIONS

### GSSOC 2026 | GIRLSSCRIPT SUMMER OF CODE

2026 – Present (3 Weeks Completed)

**Contributor & Project Admin:** Selected as contributor and project administrator for GSSOC 2026. Actively contributing to open source projects with focus on full-stack development, AI integration, and Web3 technologies. Managing project contributions and mentoring fellow contributors.

[View GSSOC Profile](#)

## EDUCATION

### B.TECH COMPUTER SCIENCE | VIT BHOPAL

8.71 CGPA

### SENIOR SECONDARY (12TH) | MP BOARD

80.6%

### SECONDARY (10TH) | ICSE

94.2%

## ACHIEVEMENTS

### GENAI & ML MUMBAI HACKATHON 2025

Top 10 Position

Secured Top 10 position out of 500+ participants in the prestigious GenAI & Machine Learning Mumbai Hackathon 2025.
